

## Agenda Setting Meeting- 10/15/20

Called to Order at 4:01

### Discussion items:

Rob Reppert and Mayor Zinkhann met with State Representative, Jim Marshall to look at the crumbling wall on the railroad's right-of-way. Mr. Marshall believes he should be able to help with the situation. Mr. Reppert asked if the code enforcement will be able to site the railroad for "unsafe practices". Ms. Zoelle will ask the agency.

Cheri Deener spoke on placing a Salvation Army kettle at the office. The secretary would be responsible to make sure the money is accounted for.

Norm Nelson reported that the EMA is picking up the generator on Saturday, Oct 17 and will be transferring the trailer title. CVREMA requested an additional \$500 in the budget to help fix the trailer next year.

Diana Zoelle has been attending the water and Sewer Authority meetings. The water line project should only slow down traffic on S. Washington St. Ms. Zoelle also would like the International Property Maintenance Code sent to the solicitor to begin tailoring it to the borough. After that is in place, she hopes to bring Richardson's Agency to the January of February meeting to start the code enforcement process in town.

Discussion on when to bring in Ben Levenger's company, DTR, for a half day training. Brad will be able to change his work schedule and meet during the week in the afternoon.

Mayor Zinkhann has contacted the school regarding the school bus route on 1<sup>st</sup> and 2<sup>nd</sup> Streets. The stops on S. Washington are hazardous and have been made more dangerous with the water line construction. Also, the mayor reported that the park is closed from dusk until dawn daily.

The proposed budget was discussed. It will be ready for advertisement at the November meeting.

Union negotiations are almost complete.

Marty Fabian of ECWSA has been advised to contact Bruce and Merrilees prior to digging near traffic loops.

### Motions for Meeting

- Maintenance Agreement for Veteran's Monuments
